## **Certificate in Structural Engineering Program**

### **Student Code of Conduct**

The Structural Engineers Association of B.C. is committed to the education and professional development of those who register for courses in the Certificate in Structural Engineering Program. It is also committed to providing a respectful environment in which this goal can best be realized.

### **Non-Academic Misconduct**

Non-academic misconduct that may be subject to disciplinary measures includes, but is not limited to the following:

1. Disrupting or obstructing instructional activities, including making it difficult to proceed with scheduled lectures and examinations.
2. Damaging, removing, or making unauthorized use of the property of the UBC Robson Square, the property of the Certificate in Structural Engineering Program, the property of the course coordinator, guest lecturer, or another student (without restricting the generality of the meaning of "property", it includes information, however it be recorded or stored).
3. Physical or verbal abuse, threats, intimidation, harassment, coercion, and/or any other conduct which threatens or endangers the health, safety, or security of any person.
4. Excessive emails or other electronic communications that, in the opinion of the instructor, are not directly relevant to the course topic covered.

### **Academic Misconduct**

Academic misconduct that may be subject to disciplinary measures includes, but is not limited to, engaging in, attempting to engage in, or assisting others to engage, in any of the actions described below.

1. Cheating, which may include, but is not limited to:
  - a. falsification of any material subject to academic evaluation;
  - b. use of or participation in unauthorized collaborative work;
  - c. use or possession in an examination of any materials (including devices) other than those permitted by the examiner;
  - d. use or possession of, or facilitation of unauthorized means to complete an examination (e.g., receiving unauthorized assistance from another person, or providing that assistance).
2. Course notes:
  - a. Students understand that course material provided is copyrighted and only intended for the student's personal use as part of the course. Copying or redistributing the material in whole or in part for other students or any third party violates copyright law.

### **Consequences of Misconduct**

Academic misconduct could result in being expelled from the Certificate in Structural Engineering Program.
